

Cut out the pictures.

Name:

Paste one set of parent/offspring cards in the spaces below and then fill in specific **similarities** and **differences** between this parent and this offspring in the chart below. (Step 5)

PARENT	OFFSPRING (baby)
	
SIMILARITIES (same) between this parent and this offspring	DIFFERENCES (different) between this parent and this offspring

Think of ALL the parents and offspring, you observed...

How are they alike but not EXACTLY alike?

What PATTERNS did you see that help you KNOW that they are the same kind? (Step 7)

These are the parts of the plants I looked at to know they are the same kind.	These are the parts of the animals I looked at to know they are the same kind.
